SINGLE COPY 16c

Congressmen Are Fighting To Save Sugar Act

The Glades sugar industry received powerful reinforcements last week in a growing fight with the U.S. Department of Agriculture to maintain the U.S. Sugar Act beyond 1974.

U.S. Senators Russell Long of Louisiana and Wallace F. Bennett of Utah, the chairman and ranking minority members of the Senate Committee of Finance, sent a letter to President Nixon Thursday explaining the act's benefits.

The committee on finances has jurisdiction over the act, which is up for renewal this year and the Senators asked the President to make clear statements the government intends to support that renewal.

Long and Bennett also asked Nixon for a statement to the 30 nations which import sugar that there are no plans to suspend the act by administrative action during the current year.

The strongly worded letter said these two statements should help stabilize the U.S. market price of sugar. That price has jumped to 13.5 cents per pound this month over a high for the year of 11.65.

As of Friday, the world market price was 16.55 cents per pound in the Caribbean but officials said the price would be 18.50 cents by the time the further freight and other charges were added on to import it into the country.

The two senators said the U.S. market price has risen so steeply over the past couple of months because of statements and policies made by Arthur Calagini, director of the U.S. Department of Agriculture Sugar Division and Kenneth Frick administrator of the USDA Agricultural Soil Conservation and Stabilization Service.

Calagini and Frick have said in several recent speeches they felt the Sugar Act should be eliminated, "uplifting it with a program along the lines of Agricultural Act of 1973."

On Jan. 11, Calagini also decreed an additional 500,000 tons, over and above the previously determined 12 million tons already allocated, could be shipped into the country or a first come-first-served basis.

"This action," the two Senators wrote, "is badly undercutting one of the main strengths of the act," which has been the obligation of foreign countries to ship their specific quota to the U.S. or else be penalized on future quotas.

"Failure to allocate the additional imports on a country by country basis could lessen our ability to get the sugar we do need," they wrote.

The result, according to Long and Bennett, has been that importers have been holding back their shipments, hoping the U.S. price will soon rise to world market levels, and is also driving up domestic prices.

"As you know," they wrote President Nixon, "worldwide sugar is relatively scarce, especially for the first half of this year."

The Sugar Act is specifically designed to insulate our market in large degree from the idiosyncrasies of the world market. As such, it tends to protect the domestic industry, to promote stability and foreign commerce, and to assure U.S. consumers adequate supplies at stable prices."

Local officials of the sugar industry agree with the two senators that the actions of Calagini and Frick have resulted in just the reverse of what was intended by the Sugar Act.

"A lot of people don't think U.S. prices would be as high as they are right now if it weren't for the announcements Calagini has made," Florida Sugar Cane League Vice President and General Manager Nelson Falkenberg said.

He said the world sugar situation is "tight" and U.S. prices would have risen to some extent anyway, but he said he thinks the announcements have accelerated the problem.

He said one problem is that the average American doesn't use great quantities, approximately 100 pounds a year, but they will have that amount even if the price jumps extremely high.

He said the world and U.S. sugar prices don't react in a normal way to supply and demand, that a slight increase in either can mean a tremendous leap or drop in prices.

Another local official said Florida is the only domestic sugar producing area which has consistently met its quota. He said that last year and Hawaii and Louisiana haven't met their quotas the past two years either.

Puerto Rico was one former major supplier, with a quota a few years ago of more than a million tons. Labor problems there have resulted in a total annual production of approximately 250,000 tons—just about what the territory consumes.

Texas farmers expected to harvest their first major crop this year but severe frosts in December killed more than 75 per cent of their crop.

There have been rumors as some of the reasons for such high price of sugar on both the world and U.S. markets and for Calagini's moves.

Truck Overturns

Two employees of the Sugar Cane Growers Cooperative of Florida escaped major injuries Tuesday afternoon when the driver of a welding truck lost control on Duda Road near the Airport Road intersection. The truck rolled over, "an undetermined number of times,"

according to Florida Highway Patrol Trooper William Grubbs. Raymond Ferrell, 22, of 18 N.E. Ave. C, Apt. 19, was treated and released at Glades General Hospital. The driver, Jeffery Leon Cobb, 21, of N.W. Ave. B, escaped with injuries minor enough to not require treatment.

South Bay Sewer Goes On The Line

The South Bay City Commission learned in a special meeting Monday night the city sewer system is operational and city residents have received work they have 90 days to hook up to the lines.

City Clerk Virginia Walker said there were about a dozen homes in the city which were either connected into the system or were being connected and the plant is operating.

The announcement came almost seven months after the July 10, 1973 target date for completion of the system by LaGraw Construction Co., the prime contractor in installing the city's first sewage treatment plant and system of lines and manholes.

Ironically, this was one of the few meetings held by the commission in recent months when there was no one present in the audience to complain about the condition of streets following the installation of lines.

Mrs. Walker assured Commissioner Esther Berry the city is still withholding final payment to LaGraw until the commission is satisfied LaGraw has left the streets in a satisfactory condition.

The commission decided to look for an employee to tell the residents where they are supposed to hook up to the system, to collect hookup fees (of \$15 per unit) and inspect the connections once they are made.

Mrs. Walker said residents can either make the connections themselves or can hire a professional plumber to do the job for them. Information on the location of proper connection points and specifications of connections can be obtained at the city hall.

Major construction began on the system in 1972 and ended several weeks ago with minor adjustments and additions to the system coming within the past few days.

In another move, the commission decided to purchase a road grader preparatory to taking over maintenance of city streets by city work crews.

The decision was made when the commission learned City Building Inspector Max Harrell believes he can buy a used grader for approximately \$5,000 but the commissioners left the purchasing price open but subject to their final approval.

The commission also directed Police Chief August Dreeson to begin enforcing a standing city ordinance prohibiting "commercial vehicles" from traveling on residential streets.

Dreeson said he has already begun warning drivers of the buses and trucks to slow down but he would begin banning them from the side streets immediately.

Miss Berry said the city would have to set up central loading zones where workers from the labor camps can be picked up to go to work.

Commissioner Mayo said another reason for stopping the heavy traffic on the side streets is that the streets are paved with no more than an inch of asphalt, not enough to bear the heavy loads of the buses and trucks.

"I'll be the first one to report it if I see anything larger than a taxi," Miss Berry said.

The commission had been expected to accept or reject the resignation of Mayor John Dreeson, but decided to table the matter until the next regular meeting on Tuesday night.

Steel Shortage Holds Up Work On Sewer Plant

Delays in opening up new housing in Belle Glade was traced back to the nation's shortage of raw steel this week.

The Palm Beach County Pollution Control Board has placed a moratorium on connecting any new housing into the city's sewer system until ongoing modifications are completed.

The modifications were expected to be completed Jan. 1 but City Manager William Mallory said Tuesday Webb General Contracting, Inc. is being held up because the company can't get 75 to 100 feet or drive chains resembling a bicycle chain.

A representative of the company, Mallory said, "said Monday he had called his supplier and told him he was going to use him for failure to deliver the chain."

Mallory said the Webb representative may have been being facetious but he said the supplier told him to go ahead but he would have to get in cases where the lines passed threatening to sue.

"I'm very sorry," the supplier was reported to have said, "but I can't deliver the chain when I can't get steel to make it."

Mallory said the chain is supposed to be used to drive large paddles in the plant's settling basins.

He said the city can't take legal action against Webb because Webb's contract carries a clause, demanded by the bidders for the job, that the contractor can't be held liable for not completing the job on schedule because he can't get materials.

The city manager said all the contractors bidding on the job apparently expected the shortage of materials when the bids were advertised.

In the meantime, the moratorium placed on new sewerage connections effectively stops anyone from moving into new housing since the county health department won't issue permits to install septic tanks.

Mallory said the supplier reportedly told Webb Contracting not to expect the chain before Feb. 28.

Despite the delays, however, the Richmond Co. of Belle Glade was working this week to install sewerage lines in the Southwest section, although homes in the subdivision can't be hooked up until the moratorium is dropped.

Mallory said the local contractor will install sewerage lines and manholes along 15 blocks on Southwest 12th Street and avenues leading off 12th.

"You might well ask," Mallory said, "why we haven't started work on a sewage treatment plant in the Northeast section of town, and that would be a valid question."

The answer is," he said, "that we won't know what cases we're going to need until this plant completed and have it in full operation."

"We have projections on what the modifications to the plant will do for us," he said, "but projections and reality are sometimes two different things."

The present treatment plant was originally designed to have a capacity of one million gallons per day and modifications are supposed to increase that capacity to 1.5 million gallons per day.

"But we have had in the past," Mallory said, "3 million gallons a day pass through the plant."

Most of the excess was due, he said, to infiltration of ground water into the sewerage lines, which had deteriorated to the point in some cases where the lines passed more ground water than sewage into the plant.

A large portion of the older lines were inspected and repaired last year during a general rehabilitation project.

The lines were inspected from within by a remote controlled television camera and leaks were sealed from within.

"We know we sealed a large number of leaks in the lines," Mallory said, "but we haven't had time yet to find exactly how much ground water seepage we've stopped and this isn't even the time of year we have the highest water table."

"We know the modifications at the plant will increase the plant's capacity too," he said, "but we don't know by how much."

"Until we find out, we don't know whether we need another plant with a million gallon per day capacity, or 400,000 or 1.5 million."

While the plant modifications at the plant will increase the moratorium on housing continues to remain in effect but at least part of the city commission favors ignoring it.

"People are going to go to the bathroom," Commissioner John Grady said during recent commission discussion "whether they go in their own house or across the street."

He said he was in favor of allowing residents to make connections to the sewer lines in spite of the moratorium, "and if they want to stop them, let them get an injunction."

Airplanes To Fight Mosquitoes Again

The Belle Glade City Commission took steps Monday night to insure bugs in the area get killed, if any, rest.

The commission renewed for another two years the contract now held by Ag-Air to spray the city for mosquitoes, taking advantage of the clause in last year's contract for a reduction in prices.

The contract calls for the company, owned by Howard Barker, to spray the city a guaranteed minimum number of 24 times per year at 29 cents per acre.

Last year's contract called for the first 24 sprayings to be done at 9 cents per acre. Both that contract and the one signed for the next two years call for lower prices if more sprayings are needed.

In a series of other actions, the commission also:

- Directed City Attorney John Baker to draw up an agreement to supply A. Duda & Sons with water for a labor camp on Duda Road.
- The city, under the agreement, also received a six inch main Duda has already had lain from the Celery Exchange to where the meter will be installed and has accepted a \$12,000 check to install the meter.

agreed to annex a 20 acre plot of land on Thib Road owned by Richard VanLandingham on which VanLandingham reportedly plans to build a trailer park.

• Accepted the sole bid to purchase another "Trash Master," a bucket the city uses to pick up trash, from Lake Equipment for \$19,138.

• Accepted a bid from Glades Chevrolet to buy six pickup trucks for \$2,998 each.

• Found the city hall, projected to be built in McDonald Park, is in the stages of planning before being presented to the commission while the architects will meet with city officials in the near future on plans for the proposed new fire station.

• Heard Neighborhood Development Project site improvements along several streets in the southwest section of town will begin next week, provided a survey is completed on time.

18 Year Bank Veteran Promoted

An old employee was made a new officer of Florida First National Bank last week when Mrs. Lurline Brooks was named assistant cashier at the bank's annual shareholders meeting.

Bank President Frederic D. Rogers said Mrs. Brooks has been an employee at the bank for 18 years.

The shareholders also reelected four other officers at the bank and elected a slate of eight directors.

The officers who were re-elected were Dean S. Campbell as chairman of the board, Rogers as president, Lenwood Fuller as vice president and cashier, and Mrs. I. Rebecca Sheppard as assistant vice president.

Named to the board of directors were Dr. J. Allen Baker, Dean S. Campbell, Gustav W. Crews, Otto Larsen, E.A. McCabe, Frederic D. Rogers, Ruth S. Wedgworth and James F. Wooten.

NEW BANK OFFICER LURLINE BROOKS IS CONGRATULATED ABOVE by Frederic Rogers as Mrs. I. Rebecca Sheppard and Lenwood Fuller look on.

Keep The Act

Someone said recently the only thing there isn't a shortage of in America today is shortages. That isn't quite true yet but another item could be added to the list of shortages and high prices in the near future if President Nixon and Congress listens to a proposal being bandied about Washington.

Arthur Calagini, director of the U.S. Department of Agriculture Sugar Division, and Kenneth Frick, administrator of the department's Agricultural Soil Conservation and Stabilization Service, want to kill the U.S. Sugar Act.

To choose not to extend the Sugar Act would be one of the worst mistakes Congress and the President could make.

The idea to let the act die instead of extending it past the end of the year would mean the United States would go on the world market, where an estimated ten per cent of the world's sugar is sold today.

One report has it that Calagini had the idea a couple of years ago, when the price of sugar on the world market fell to less than a cents a pound while the U.S. price held at 9.

Sounds like a good way to lower the price of sugar on grocery shelves around the country, right? Wrong.

While the world market price of sugar often does fluctuate to a lower price than the price paid on the U.S. market, it also goes much higher.

An example is that during 1973, the world market fluctuated 3.65 cents per pound while the U.S. market fluctuated 2.81 cents per pound.

As of Friday, sugar was running 13.5 cents per pound on the U.S. market and 16.65 on the world market.

And that isn't even an accurate gauge because you would have to add another 1.75 cents per pound for freight and insurance to import it into the U.S., making the equivalent world price a whopping 18.5 cents per pound.

That's an even nicker move per pound for raw sugar. And people in a position to know say the U.S. price wouldn't be as high as it is if it weren't for policies instituted and statements made by Calagini and Frick.

Who would get hurt if the government decides to kill the Sugar Act? You do. We do. The little man. Mrs. housekeeper gets it in the neck because sugar would become a super market item with a price that rises and falls like the tide in the Bay of Fundy.

If Congress were to see sugar prices soar and fall like lettuce, the surest way they could do it is to let the act die.

And if prices are fluctuating like that, what banker in his right mind is going to advance money to build or make major improvements on sugar mills?

Who's going to risk investing millions of dollars into a mill, such as the Sugar Cane Growers Cooperative of Florida has decided to do, if the bottom might fall out of the market before the expansion is completed?

Who else gets hurt without the act? The smaller farmer growing a few acres of cane. The one least able to protect himself.

Under the act, everyone who produces sugar pays a milling tax of 53 cents per 100 pounds, whether it is domestically produced or is imported from one of the 30 countries which help satisfy America's sweet tooth.

Domestic producers receive part of that money back on a sliding scale with giants such as U.S. Sugar receiving 30 cents per hundredweight and smaller farmers receiving 80 cents in return.

Whatever the overall effect of killing the act, the giants would stand to gain 25 cents per 100 pounds produced but the little man gets it in the neck again.

Who else gets hurt? The farm worker...that's right, another little man.

Under the act, sugar cane cutters in Florida are guaranteed a minimum pay of \$2.15 per hour while other workers are guaranteed \$2.45 an hour.

These men work hard for the pay and many of them earn more than the minimum but even if they don't, it's better than the \$1.30 minimum they usually get.

These men work hard for that pay and many of them earn more than the minimum but even if they don't, it's better than the 1.30 minimum guaranteed agricultural workers as a whole.

die, and Calagini and Frick and honorable men. They must be honorable because, after all, they head the SDA Sugar Division and the ASOS and they serve the public interest.

Et tu, Calagini?

TAKE AWAY THE FOOT

More Work Means Better Play

Dear Sir:

This letter is written in reference to an article by Ms. Karen Hansford appearing in the Belle Glade Herald on January 17, 1974. In that article Ms. Hansford made numerous references to the well maintained ball-park in Belle Glade, I for one would like to point out to Ms. Hansford living in Belle Glade who play softball in Pahokee 'how' the ball-park in Pahokee is maintained.

First of all, the City of Pahokee is in charge of cutting the grass on the field. On occasion the City is unable to maintain their cutting schedule, and the Pahokee Men's Softball League cuts the grass. The members of the City are not to be blamed for this. The members of the City are not to be blamed for this. The members of the City are not to be blamed for this.

The fence to which Ms. Hansford made reference was also installed by the Men's Softball League. The lights are installed by members of the Men's Softball League who are employees of Fla. Power & Light Co. Before each season

begins, the Men's Softball League trims and edges the entire infield area, and fills in with clay low spots and rough spots where it is needed. The smoothness of the field is contributed to the fact that the infield is properly drained each night that the Pahokee Men's Softball League uses the field.

Ms. Hansford makes mention of the fact that the women's softball team that is in poor condition. The only remark I can make is a statement of this nature is that if the women's

team is in poor condition, it is because of the fact that the women's team is in poor condition. The only remark I can make is a statement of this nature is that if the women's

team is in poor condition, it is because of the fact that the women's team is in poor condition. The only remark I can make is a statement of this nature is that if the women's

team is in poor condition, it is because of the fact that the women's team is in poor condition. The only remark I can make is a statement of this nature is that if the women's

team is in poor condition, it is because of the fact that the women's team is in poor condition. The only remark I can make is a statement of this nature is that if the women's

team is in poor condition, it is because of the fact that the women's team is in poor condition. The only remark I can make is a statement of this nature is that if the women's

team is in poor condition, it is because of the fact that the women's team is in poor condition. The only remark I can make is a statement of this nature is that if the women's

team is in poor condition, it is because of the fact that the women's team is in poor condition. The only remark I can make is a statement of this nature is that if the women's

team is in poor condition, it is because of the fact that the women's team is in poor condition. The only remark I can make is a statement of this nature is that if the women's

team is in poor condition, it is because of the fact that the women's team is in poor condition. The only remark I can make is a statement of this nature is that if the women's

team is in poor condition, it is because of the fact that the women's team is in poor condition. The only remark I can make is a statement of this nature is that if the women's

team is in poor condition, it is because of the fact that the women's team is in poor condition. The only remark I can make is a statement of this nature is that if the women's

team is in poor condition, it is because of the fact that the women's team is in poor condition. The only remark I can make is a statement of this nature is that if the women's

men who play softball in Belle Glade and South Bay were to put forth half the effort on their ball fields as has the Pahokee Men's Softball League, this area could have four nice looking fields instead of just two. These two being located in Pahokee and Canal Point.

Fighting is not the answer to the work on everyone's part, goes a long way.

Very truly yours,

Randall J. Mills, Secretary
Pahokee Men's Softball League

Feb. 2 is a very functional day.

It's Ground-Hog Day and Cardinals Day, and the two may be linked, says World Book Encyclopedia.

As the ground hog, that furry critter sticks his head out of his hole, and if he sees his shadow, goes back inside to wait out six more

weeks of winter weather. If it's cloudy and he sees no shadow, spring is on its way—or so it's believed.

There ought to be a top notch

'Infunnel Revenooers' Slap Service Stations

CRACKER CRUMBS

BY DEAN JONES

here in town and he said he had run out but before he did there were quite a few people who were buying by the case.

Now, I realize toilet tissue doesn't spoil but buying it by the case is ridiculous. If there weren't a shortage before, that's enough to make one and it makes it harder on everyone else too.

One of the most frustrating things about being an editorial writer is that so often, it's hard to see if anyone out there is really paying attention to what you say.

So it always feels good to see proof positive someone is acting on an editorial or column you write, and you feel particularly good when the editorial concerns something you feel strongly about.

On Feb. 25 of last year, I wrote an editorial headlined "Secret Ballot". It concerned an all-but-secret election which had just been held by the Palm Beach-Broward Soil and Water Conservation District.

It was the second election in just a few months in which one or more members were named to the district's

board of supervisors.

And it was the second election in just a few months in which someone, somewhere, failed to make a reasonable effort to advertise the fact there was going to be an election before hand.

There were also a number of other things about that election I didn't like, such as the polls being open only from 8 a.m. to 5 p.m.; such as there only being three polling places throughout the two counties included in the district and several other such ones.

Fortunately, I wasn't the only person concerned. Mrs. Jane Dougherty and Miss Jessie Freeling were more than a little perturbed over the way the whole thing was handled and, before it was over, State Rep. Tom Lewis was on it.

Tom happens to be one of my favorite people and I happened to run into him at an SR80 meeting the night the last election took place.

I was still hot enough to let him know just how I felt about it and that's when he became interested. He wrote the other day and said he was going to pre-empt a bill which would the elections to be held in November.

off the record

with Glenn Loney

It was almost bumper to bumper traffic Saturday morning between Belle Glade and South Bay—going and coming!

Everybody was out gas hunting. Only one station could I find open in Belle Glade and the lines there stretch as far as the eye could see.

So I jumped into the stream of those hitting our neighbor four miles to the south. One station would give me three dollars worth and the second station would only give me two.

As I was paying my two dollars at the second station another car pulled right in behind me. The man taking my two dollars turned around to the woman and said, "Sorry, I'm out of gas." And he closed up shop and went home.

The gas situation, particularly around the end of the month, is getting more and more ridiculous as the days go on. Do you ever get the impression you are being manipulated?

For the second time in two years John Grady has switched parties. He changed from Democrat to Republican and ran for state senator.

Ann, while he has not made an official announcement, his switch from the Republican to the American Party, almost certainly puts his hat in the ring for Ed Gurney's U.S. Senate seat.

Unfortunately for John, this is a statewide race. We say unfortunately because several "statewide names" have already indicated they will seek the Senate seat.

Right now the professional political prognosticators are saying Gurney won't run again. His name has been used to almost as many illegal fund raising schemes as the president's.

Gurney just may throw in the towel after only one term.

The better known names around the state are associated with one of the two major parties. They are either Democrats or Republicans.

The American Party lost any chance Sunday when George Wallace decided to make his bid for the presidency as a Democrat.

With Wallace at the head of the party his name alone could have given winning votes to lesser known such as Grady. But without Wallace the American Party can't all hang it up.

This is not to cast any doubts on the abilities of the people within the party. The history is dotted with the would-be greats if only they had been a little better known.

And today—it's not who you are—but who you know you. It certainly would be fine to have a U.S. Senator from Belle Glade. But it isn't in the cards.

There ought to be a top notch

basketball game at Glades Day School this Friday night. The private school is meeting the sixth ranked "A" team in the state.

They play a real good brand of ball. And anyway, it would be something different to do on a Friday night in Belle Glade. Go on down and see for yours.

That crazy Mr. Mac is at it again. With long lines stretching from every gas station in sight, he leans over your table and whispers, "Hey, do you know where I can sell some gas?"

Of course, if it wasn't bad enough that he tried to kill himself on a motorcycle, now he's really gone whole hog. He's bought himself a 10-speed bike.

So far he hasn't got it past third gear yet!

And little old South Bay keeps right on growing. Another business has gone into the tiny little town to the south which was far sighted enough a couple years back to start putting in a community sewer system.

The sewer system is the line now and it's a start in starting to move in the right direction. The Royals mini-plaza and the 8-days Inn going in over there.

We have also reported on the new low housing project. All of this directly attributable to the fact sewer is finally available in South Bay.

And no Western Auto is going into the old Willis.

Just as the population center in the Glades shifted from Canal Point to Pahokee and finally to Belle Glade so it can continue to shift four more miles to the south.

People in Pahokee used to laugh when someone would mention the possibility of Belle Glade ever being bigger than that city. But they had to stop laughing when it became a reality.

Pahokee stopped growing. It had people in it who wanted it to stop growing, and now the city is paying the price.

The same could happen to Belle Glade, especially when our city commissions are more interested in building a new city hall rather than putting in a decent sewer system so we can get housing in this area with which to attract new residents.

Ask yourselves, how many times have you lost people who would have come to work for you if they could have found a place to live.

Yes, the city is doing something about the sewer, but it is too little and quickly becoming too late. Yes, we need to fix up the sewer we now have, but we also need to be well on our way to having an entire new additional system.

But we aren't.

with general elections.

I also received a tip last week the district is going to hold another election Mar. 25 to replace Cecil D. McClure, the only Glades resident still on the board of supervisors.

McClure is resigning his office with two years left in his term and his successor will be elected to fill that two-year vacancy.

I was glad to learn this week one person who read that editorial was wrong when she thought it may have been the reason for McClure's resignation.

Although he wouldn't comment on why he was resigning, McClure said the editorial had nothing to do with it.

Belle Glade is going to be a television star again in the immediate future but this time, it's not going to be in the nature of an NBC White Paper or another Harvest of Shame, although the whole thing is a little fishy.

A 17-man (person?) crew is going to be leaving the Belle Glade area today after filming something like nine television tapes and film clips on the great large-mouth bass fishing offered in the area.

The main shows are being filmed of three time national fishing champion Virgil Ward's Championship Fishing show, syndicated on more than 80 stations.

It's always a good deal when you can get this type of free advertising but it's even a better deal when it's the promoter's idea.

It should be a real shot in the arm for the growing Lake Okeechobee bass fishing-oriented tourism trade.

WISH I'D SAID THAT

"What came up budgets in tripping earnings"—Ben P. Hays, The Pickens (R. C.) Sentinel.

"Nothing is quite so annoying as to have someone go right on talking when you're interrupting."—Elizabeth W. Spalding, The Kentucky (Bardonia) Standard.

"Families used to be considered shiftless if they lived from pay day to pay day. Now they're interrupting."—Elizabeth W. Spalding, The Kentucky (Bardonia) Standard.

"I'll always wonder about the mentality, too, of someone who hoards what's supposed to be in short supply. A good example of that is what has been happening recently to toilet tissue."

A few weeks ago, I had a few chucks from the expense of Bill Hunter about this same thing but, since then, I've noticed a lot of bare space on store shelves where you usually see toilet tissue.

Just the other day, though, I was talking to one of the store managers

Ticket Sales Continue

Ticket sales for the rally of original oil painting by Mrs. Tyler were still going on week according to a spokesman of Nu Kappa Phi at Beta Sigma Phi. The painting is still on display at Golden Charm Jewelers and will be there until Saturday. After Saturday, it will be displayed at the new Glades Mercantile store until the closing on Feb. 4.

Nothing Fishy Here

Sue Griffin of Belle Glade is the new seafood home economist with the Department of Natural Resources. She takes the place of Mrs. Wyn Shoptaw. Miss Griffin who has just arrived in Jacksonville attended Tennessee Temple College in Chattanooga, Tenn. then transferred to John Brown University to major in home economics.

She taught home economics for a year in Aucilla Christian School near Monticello, and spent the past summer at Florida State University before going to Pascagoula, Miss. to take six weeks of training for her new position, under Miss Bertha Fontaine.

Part of Sue's "examination" included doing a seafood demonstration, using six recipes, and a television program on the preparation of mullet.

From a desk piled high with mail and invitations, Sue has lined up television demonstrations and consumer and extension programs along with visits to newspaper and radio personnel on mullet promotion.

"Mullet season is in full swing now and will be abundant through the middle of January," she said. "Mullet is available in several supermarkets and all retail seafood outlets in Jacksonville."

She is the daughter of Mr. and Mrs. L. E. Griffin, 9 N.W. ave D.

Jim Heriot

THIS ENERGY CRISIS MIGHT NOT be all bad. I heard one friend say it made him feel good, kind and warm all over. He said there hadn't been a real "cause" that the whole nation had got excited about or jangled in since World War II. Back then there had been a real spirit to win, a "Don't Give In" there's a war on, "feeling and a dot, dot, dot dash on the dera, a V for victory. He said the energy crisis is forcing us to think about the good of the whole again, letting us think about something other than ourselves. He may have a real idea there.

EVERYONE KNOWS SLOWER DRIVING helps save gasoline and tires as well. And you can drive a freeway or expressway with a 70 mph speed limit and go at 50 mph and not get run over. A recent survey showed the average highway traffic had slowed by 10 mph after the president asked everyone to drive at 50. Let's face it, the gas hog drive on by. DON'T IDLE YOUR CAR FOR FIVE minutes before driving. That's a real gasoline waste. Even in the coldest climates, a 30 second warmup is sufficient. If the temperature isn't below forty degrees no warm up at all usually is needed. With a modern oil, and lubrication systems, a long warm up is simply wasteful.

ANOTHER WAY TO SAVE GASOLINE IS TO be sure your car is in top tune. Our service department is headquarters for tuneups and inspections. Our trained, qualified, experienced and reasonable technicians will put your car in gas saving shape. Just give us a call here at 214 HERRING CHEVROLET. OLDSMOBILE is Pakkee for a tuneup!

ONE GOOD WAY TO SAVE GAS IS TO join a car pool. Sure it's a little trouble, but it can save a lot of gas. It's cheaper too.

Models For Dimes

Continuing the return to the casual and to soft feminine lines, this season's fashions are particularly wearable, fashion leaders say.

Designs by top American designers will be previewed at the March of Dimes fashion show presented by Jordan Marsh Department Store and Ms. Kay West, fashion coordinator.

The show will be held at the Paramount Theater in Palm Beach at 1:30 today, and is titled "March of Fashion". Fashion show chairman, Mrs. Albert Fier, explained that the fashion show and the luncheon at 2 o'clock are to be held in aid of the Mothers' March on birth defects that took place Sunday.

Republicans Elect Officers

The Glades Republican Club elected Quaker Oats Manager Robert Pease as president for 1974 during its annual election of officers Friday at the Belle Glade Country Club.

Other officers elected were Vice President Charles Goodlett who retains the post from last year, Secretary Joanne Horvick of Pahokee and Treasurer Bill Bailey, the 1973 club president.

Belle Glade chiropractor Dr. Tom Baker and Pahokee

farmer Ray Hutton were named to the club's board of directors.

The four officers, according to Bailey, and the two elected directors, will meet sometime next week to appoint five more directors. No date has been set for this meeting yet.

The guest speaker at the meeting Friday night was Walter Colbath of North Palm Beach, the former Public Defender who was recently chosen the Palm Beach County

Republican Executive Committee Chairman.

Noticias En Espanol

por Ruben Radillo

Los Cubanos del area respaldan la petición del Dr. Manolo Reyes por un GOBIERNO EN EL EXILIO.

Decididos a luchar hasta que en nuestra patria brille de nuevo el sol de la libertad, los abajo firmantes, cubanos residentes en Belle Glade, Pahokee, Glenside y áreas circundantes, respaldamos su petición a nuestros compatriotas del exilio para formar por medios puramente democráticos una representación que hable por todos nosotros, dirigiendo y coordinando todos los esfuerzos y gestiones que sean precisos para defender la causa cubana, cesando esas gestiones el día que nuestro pueblo pueda autodeterminar su destino.

Comemoración del 28 de enero

El pasado domingo día 27 de enero se celebró en la Primera Iglesia Metodista de Miami, un culto de recordación y gratitud a Dios por la vida de nuestro Apóstol José Martí.

El Pastor de la Iglesia, Rev. Raul Vazquez, puso en las manos del Dr. Rolando Espinosa y del señor Francisco Radillo la coordinación de este acto de recordación del Apóstol Martí.

Entre los que concurrieron al acto estaban, el Senador Radio Crema, el General Abelardo Gomez, el Dr. Gabriel Rodriguez, el periodista Daniel Sin Roman, el Rev. Jose R. Morán, el Rev. Moises Tolar de la Iglesia Bautista, y participando en el programa el Trío de la Iglesia Bautista de Riverside.

En este acto, en que se agradeció a Dios, el haber podido enriquecer nuestra cultura con un hombre cuyos trabajos literarios, humanos, laicos y los anglos, se elevaron oraciones por una pronta liberación de nuestra patria de la bota soviética.

Después de terminado este acto, la familia de Jose Ortiz miembros de la Primera Iglesia Metodista Unida de Miami, ofrecieron un rico brindis a todos los concurrentes e invitados especiales.

Sabia usted que...?
de vez en cuando hay que reír...

Alguien se interesa en saber como se distinguía el alemán por el optimista: la respuesta fue muy sencilla: El alemán pesimista estudia ruso, el optimista, ingles.

HABLANDO CON PEPITO:

Dime Pepito, en cuantas partes se divide un avion?
PEPITO: Bueno eso depende.
Depende de que?
PEPITO: Si señor, eso depende de la altura que exiga.

se necesita un piano

Si usted sabe de alguien que tenga un piano en buenas condiciones y este deseara venderlo, favor de llamar al 996-3288, o de enviarnos a esta redacción su nombre y dirección con mucho gusto, nuestra persona interesada pasara a verlo. El piano es para dos músicos que desean aprender musica. Si usted tiene uno o sabe de alguien que lo este vendiendo, de nuevo lo suplicamos nos lo haga saber.

The Belle Glade Herald, Jan. 31, 1974, 5A Cumpleaños

Para La Juventud

Es de mucho aliento para nosotros el contemplar las vidas jóvenes que pueden vencer las tentaciones y los problemas con los cuales cada joven y cada muchacha tiene que enfrentarse. Es la tristeza, ver como vidas de grandes valores, caen en el camino de sus vidas y en la época de la juventud, como víctimas de manos y mentes malvadas, que buscan la riqueza perdiendo las mentes de jóvenes inocentes.

Muchos jóvenes hacen de sus vidas lo mas alto que pueden aspirar, otros las desprecian hasta lo mas bajo que nuestras mentes a veces es imposible aceptar.

Otros buscan en el estudio y el trabajo fuerte el estímulo y la meta a alcanzar, otros la vagancia les vence, y escogen el camino del menor esfuerzo. Sin embargo, hubo alguien que intento lo mejor para la juventud El Creador, nuestro Dios, provee esa tiempo de juventud, para la preparación de una vida adulta de exilio.

Atentamos a la juventud de Belle Glade, que busque el verdadero camino a una vida de experiencias positivas, a padres, sus hermanos, Lourdes, sus hermanitas, Angel, Cesar y Geisela Echeverique, sus hijos Carli, Jose, Maria y Lol.

Además los siguientes amigos Victor Perez, Freddy Alvarez, Jergo Estrada, Adrian y Ricky Puig, Alejandro Toledo, Jose y Juan Armas, Carlos Torres, Henry Alava, Antonio Dubois, Raulito Garcia, Mario A. Vidal, y Johnny y Rebecca Teleche.

El día 28 de enero, celebró su cumpleaños la linda seorita Lidia Quevedo. Lidia es hija de los esposos Rejuelo y Lidia Quevedo. Esta jovencita es "itty actty" en el coro de la Iglesia Metodista Community, asiste al Christian Day School. Nuestro mayor deseo es que ella pueda convertirse en una mujer de bien, y que pueda llevar adelante los planes y los sueños de toda muchacha joven.

Para nuestra amiga en el campamento, Lidia Mariza Rosa, van nuestras felicitaciones adelantadas por su cumpleaños el proximo viernes día 1ro. Mariza es hija de los esposos Nilo y Juliana Rosa. Esperamos como lo esperamos de todos nuestros amigos y amigas, que puedan seguir cumpliendo muchos mas, y que pueda llevar gozando de la compañía de sus padres y hermanos. FELICIDADES.

Nuevo Hogar

Los esposos Carlos y Luluis Blanchard desean invitar a sus amistades a conocer su nuevo hogar, en el 881 S.E. 2nd.

Los esposos Blanchard, esperan recibir las visitas de sus amigos y juntos compartir de su vida y entusiasmo en este nuevo hogar que Dios les ha permitido adquirir. Nuestro deseo particular es que puedan gozarse en el, y que muchas cosas buenas puedan disfrutar esta familia querida.

A Nuestros Lectores

Les invitamos cordialmente enviarnos sus noticias a esta redacción, para publicitarlas. Recordamos sin embargo que las noticias deben venir debidamente firmadas y dirigidas al Belle Glade Herald "Spanish News". DEJENOS SABER DE LO IMPORTANTE E INTERESANTE QUE HAY EN SU FAMILIA Y EN SU CIRCULO DE AMISTADES.

El domingo es el día de adorar a Dios. Asista a la Iglesia de su preferencia.

Augusto J. Blanchard

En días pasados celebró su 11 cumpleaños el niño Augusto J. Blanchard hijo de Augusto y Merida Blanchard.

En esta ocasión Augusto y sus amigos disfrutaron de una rica merienda, rifas, competiciones de past, pond and kick de football. Con premios a los ganadores y la tradicional balanza, la cual rompieron a balazo.

Entre los familiares allí reunidos se encontraban sus padres, sus hermanitas, Lourdes, sus hermanitas, Angel, Cesar y Geisela Echeverique, sus hijos Carli, Jose, Maria y Lol.

Además los siguientes amigos Victor Perez, Freddy Alvarez, Jergo Estrada, Adrian y Ricky Puig, Alejandro Toledo, Jose y Juan Armas, Carlos Torres, Henry Alava, Antonio Dubois, Raulito Garcia, Mario A. Vidal, y Johnny y Rebecca Teleche.

CORRECTIONAL TRAINING INSTITUTE

EXPANDING THE CORRECTIONAL PROGRAM

THREE GLADES CORRECTIONAL INMATES COMPLETE TRAINING
...they travelled to Raiford State Prison where they earned junior college credits

3 Complete Program

Three Glades Correctional inmates recently completed a 180 hour training program at the Correctional Training Institute in Raiford as part of an ongoing training program for state prison personnel.

Edgar Elliott and William M. Bures took the training in Correctional Administration, Correctional Operations and Human Relations. They also received nine semester credits each from Lake City Community College for their participation in the training program.

The state Division of Corrections developed the courses to upgrade capabilities and effectiveness of existing personnel and to train and qualify new needed manpower to achieve standards for treatment, control and habilitation.

Folks You Know

Deanne Doney

Private Deanne Doney, 22, son of Mr. and Mrs. Thomas Doney, 524 S.E. Sixth Drive, Belle Glade, completed eight weeks of basic training at the U.S. Army Training Center, Fort Knox, Ky.

He received instruction in drill and ceremonies, weapons, map reading, combat tactics, military courtesy, military justice, first aid, and army history and traditions.

Joel Alexander

Private Joel Alexander, 22, son of Mr. and Mrs. Laura E. Alexander, 238 Holmes Court, Pahokee, completed eight weeks of basic training at the U.S. Army Training Center, Fort Knox, Ky.

He received instruction in drill and ceremonies, weapons, map reading, combat tactics, military courtesy, military justice, first aid, and army history and traditions.

Herbert Johnson

Army private Herbert Johnson, son of Mrs. Mary Ethel Johnson, North West 10th, South Bay, is assigned to the 1st Cavalry Division at Ft. Hood, Tex.

Pvt. Johnson is a field wireman in the division's 1st field artillery.

His father, Henry L. Thomas, lives on powerline road, Pompano Beach.

Cabin Edmondson

Army Private first class Cabin Edmondson, 22, son of Mr. and Mrs. Bernice Edmondson, 9172 W. Ave., Belle Glade, is serving with the 88th Ordnance company at Camp Aker, Korea.

Pvt. Edmondson is a forklift operator in the company.

Michael Hadden

Private Michael R. Hadden, 18, son of Mr. and Mrs. Roy Hadden, 1716 N.W. Avenue F, Place, Belle Glade, completed eight weeks of basic training at the U.S. Army Training Center, Fort Knox, Ky.

He received instruction in drill and ceremonies, weapons, map reading, combat tactics, military courtesy, military justice, first aid, and army history and traditions.

Donald Hunt

Jacksonville - Navy Airman Donald O. Hunt, son of Mrs. William Bullant of 342 W. Alverdes, Clewiston, returns to his hometown at the Naval Air Station here with Patrol Squadron 56. Hunt participated in a training exercise aboard the aircraft carrier USS America.

A former student of Edison Junior College in Fort Myers, Fla.

Beta Xi

Meets

Beta Xi held its regular meeting at the home of Mrs. Don Fuchs on Tuesday, Jan. 22.

Guest Maria Carter from Nu Kappa Chapter presented their oil painting by Ann Tyler which they will give away in their Raffle on Feb. 4. The proceeds will go to the Nellie Smith Residence for Girls, Inc.

During the business meeting, Social Chairman, Vivian Miller, reported a fun "Day on the Town" on Jan. 19 with a luncheon at the fabulous Patricia Murphy's Candlelight Restaurant in Boca Raton and an afternoon of shopping following.

Jeanette Cameron, Ways and Means Chairman, noted a successful Exercise Class in progress. Meetings are held twice weekly on Monday and Thursday mornings from 10 - 11 a.m. at the Episcopal Education Building. Everyone is welcome. There is always room for more.

Avelita Sanchez extended an invitation to the Chapter to attend a luncheon at the Big B Ranch on Saturday, March 2.

The program entitled "The Connoisseur" was presented by Anna Mae Chapman. Each member presented items from her favorite collection or an article which she valued.

The collections ranged from fun items as sun glasses and whistles to beautiful jewelry and paintings.

Bridge Winners

The Open Duplicate Bridge Club will hold its first games at 7:30 p.m. tonight at Belle Glade Elks Lodge 1617 on Southeast Avenue E.

The club met on Tuesday nights last year but Mrs. Guy Wood said it was agreed more players are free on Thursday nights.

Following the business meeting, the hostess served cake, coffee and tea to the following members: Mrs. Lee Burke, Mrs. Tom Rubeke, Mrs. Ron Cameron, Mrs. Marian Chapman, Mrs. Joe Crockett, Mrs. Edith Freeland, Mrs. Bertha La Chance, Mrs. Terry Miller, Mrs. Ben Painter, and Mrs. Alvaro Sanchez.

At Tom Norton Motor Company Good Service Is Our Bag!

"I try to do my work right the first time so the customer will be happy," says Bill Lallier, one of the fine group of mechanics at Tom Norton Motor Company in down town Belle Glade. "Whether it's a simple repair to a door, or a more complicated transmission job, I take the same kind of care. And when I'm through, I'll not only take time to clean your car, but, space permitting, I will place the old parts I have taken out of your car and put them in a plastic bag in your trunk. I take great pride in my work, but I'm human too. So if something isn't just right you let me know. Because I want you back as a customer, and so does my boss."

News From The Home Front

Spudder, Spudder

Spuds and muck went flying Saturday but no one was injured when a produce-loaded tractor-trailer slammed into this Palmetto Produce truck on SR50 at the L-8 levee just east of 50 Mile Bend, Florida. Highway Patrol Trooper F.J. Groves said he found a broken hydraulic line on the potato-laden truck, confirming driver Roy Parker's story his brakes failed him, and his truck couldn't be stopped from crossing

the highway he was attempting to turn west on off a road paralleling the L-8 canal. Glen Kimball of Waterford, Wis., was driving the semi-truck, along with his father Ed Kimball, the larger truck's owner. He said Parker was literally airborne when he crossed Killer 80. As can be seen, the larger truck hit the smaller so hard Parker's front wheels were popped from under the truck.

Sugar League Urges Fuel Saving

A list of 11 ways area sugar growers and their employees can do their part to ease the fuel shortage was distributed Friday by the Florida Sugar Cane League.

League Public Information Director William Hunter said the Federal Energy Office has assigned a top priority grouping for fuel categories to agriculture, and added the growers should be able to get the fuel they need to operate.

But even though farmers have a first call on gasoline, diesel, bunker C, propane, aviation fuel and others, Hunter said, "each company, grower and employee should do all they can to conserve fuel to help carry out our national policy to reduce fuel consumption."

The league suggested the growers:

- Load all cane transport vehicles, trucks or rail cars, full to reduce the number of trips.
- Maintain and operate vehicles for "maximum" fuel efficiency by properly inflating tires, operating vehicles smoothly with no "jackrabbit starts and stops," shut down engines when possible—and have regular engine tuneups.
- Also combine trips to eliminate unnecessary trips, as well as conducting as much business as possible by radio and telephone.
- Raise office thermostats to 78 degrees when cooling and lower thermostats to 68 degrees when heating.
- Reduce lighting where feasible.
- Replace as many incandescent light bulbs as possible with fluorescent tubes.
- Use bagasse as much as possible to fire boilers to reduce the use of bunker C.
- Encourage employees to drive to work by car pools.

Membership Drive Begins

The 1974 Belle Glade Chamber of Commerce membership drive got underway last week as Les Berryhill welcomed eight new members to the chamber. Above, he is shown welcoming Fred John of the Elk's Lodge, Teresa Evans of the Slack Shack (soon to open), Berryhill himself, Sharon Groves of This 'n That, George Burch of Lake Hardware and Laura Hayes of The Hass. Below,

Berryhill welcomes retired barber Clarence Davis, Vernon Jones of Benny's Auto Parts and Robert "Buck" Story of Best Buy Drugs. Berryhill is captain of one of two teams vying for the most new members. The winners will be treated to a steak dinner while the losers eat beans. He said the COC began the year with 244 members and the goal is 300.

C D McClure Resigns

Special Election Planned For Soil - Water District

The Palm Beach-Broward Soil and Water Conservation District Board of Supervisors is asking for special election to replace Cecil D. McClure of Belle Glade and could be the last election the district will have under the auspices of the State Department of Agriculture.

McClure is resigning with two years left of his present three-year term. McClure made no comment on the reasons for his resignation.

The supervisors are asking for the special election to be held Mar. 26 but a secretary at the district's office said no confirmation on that date has been received yet.

Unlike most elections, which come under the authority of the state Supervisor of Elections, the district's elections are set up under different rules and regulations.

This may change, however, since state Rep. Tom Lewis said last week he intends to file a bill requiring the elections to be held in general elections.

"How many voters in Palm Beach and Broward Counties are aware that they can vote in the Soil and Water Conservation District elections," Lewis queried.

"I must admit that I had not even heard of this district until a year ago," he said, "and, as I did a little investigating, I was very much surprised at what I found."

He said he was surprised to find the district, as other such districts throughout the state, is funded through state and federal funds to conduct surveys, investigations and research relating to soil erosion, floodwaters and soil and water resources.

"The work of the various Soil and Water Conservation Districts throughout the state is, indeed, worthwhile," Lewis said, "however, the method of electing the supervisors is far from worthwhile."

He criticized the polling places at the County Offices Building in Belle Glade, a grain and feed store of SRT in rural Delray Beach and at the Farm Extension Office in Fort Lauderdale.

"Since these elections are not highly publicized," he said,

"not that many registered voters even know they can vote in them."

Should the state legislature adopt Lewis' bill, the elections would be held in November in conjunction with the general elections and candidates would be required to file a nominating petition signed by 25 or more qualified voters with the Secretary of State in Tallahassee.

Lewis said the bill would increase public awareness of the elections and reduce their costs.

"I like this bill," he said, "because it doesn't create any new laws, regulations or agencies. It just does a little housekeeping in the interest of the people, with what is already there."

Switch And Fight

"Now, this isn't an announcement," Belle Glade City Commissioner John Grady quipped Monday when he switched political parties, for the second time in little more than a year. He was making the switch from the Republican Party, which he joined in

1972, to the American Party, which has asked him to run for the U.S. Senate seat now occupied by Sen. Ed Gurney. Grady said he believes the leaders of both major parties have sold out America. He became the fourth American Party member in the Glades

Local Girl Makes Good

Jan Uwinn of Pahokee said this week she assumed Jan. 14 her new duties as director of nursing for the Palm Beach County chapter of the American Red Cross.

Miss Uwinn is a June graduate of the University of Florida, earning a bachelor of science degree in nursing. She said she has plans to expand service to the Glades in particular and the county in general.

"We plan to provide home nursing courses for condominium communities as a new project and expand the Mother and Baby Care classes throughout the Glades."

She said the reason she intends to concentrate more energy on the Mother and Baby Care Centers is the increasing number of girls who become pregnant and remain in high school.

"Since there are so many," she said, "I think they should at least learn how to take care of themselves and their babies."

Miss Uwinn said she became interested in nursing as a career while a student at Pahokee High School.

NEW DIRECTOR OF NURSING JAN UWINN tries her new desk at Red Cross office on Sen. dist.

Cecil Conley To Speak

The Belle Glade Women's Club will hold its monthly meeting Feb. 7 at the Armory. The speaker will be Dr. Cecil Conley, Executive Dean of the Glades Branch of Palm Beach Junior College.

Fashions Reviewed

Glades Central students previewed a line of do-it-yourself fashions Friday as Homemaking students modeled clothing, some made by themselves and some brought in by Southeastern Regional Sales Manager Linda Gibbons of Simplicity Pattern Co. The two patterns above were meant to point out the versatility of a reversible jacket.

This 'n That

These four little ladies are taking advantage of one of the services of a new store in Belle Glade. This 'n That, located on S.E. Ave. B, specializes in arts and crafts, and Sharon Groves and her partner, Natalie Nachman, offer crafts instruction to children on

Saturday mornings and to adults during evening hours. The girls above are using something called Instant Paper Mache to make this 'n that. From the bottom, moving clockwise, they are Robin Whidden, Becky Wallis, Cathy Malley and Kris Kitchman.

The Sporting Scene

Mims Named Most Valuable Player

OUTSTANDING RAIDER OFFENSIVE BACK OF YEAR JERRY CLARK accepts his trophy from defensive coach Johnnie Davis at awards banquet.

Kudos and questions were the order of the night Jan. 24 when James Mims was named the Raiders' Most Valuable Player for the 1973 season during the Glades Central Football Awards Banquet.

Raider Wrestlers Win GCHS Second Place

Steering performances by outstanding Raider wrestlers put Glades Central in second place in the 12 team Southwest Conference Wrestling Tournament. Winning first place trophies were Anthony Wilson and Clark Lloyd while Ronald Collins finished second, William Clark third, and Wellington Hoff third.

Coming off of such an impressive tournament finish, the Raiders lost to a gutsy "Cajon Beach High School" team 35-19. Since then, however, it has been three wins in a row for the improving trippers.

First it was Atlantic that was handled easily 47-11. But several days later it took near perfect performances from Charles Smith and Anthony Wilson to clinch a 28-27 victory

at Forest Hill. Most recently it was home against a strong Jupiter squad that had defeated Glades Central earlier in the season. The improvement in the local team was evident when the Raiders won 11 of the 17 bouts wrestled.

The evening's matchup in the unlimited weight division featured undefeated Clark Lloyd of Glades Central versus undefeated Tom Hishop of Jupiter. Now Lloyd is still undefeated and Hishop isn't. The Raiders humbled Jupiter 25 to 17.

This week the Raiders are at home twice. On Tuesday they face Fort Pierce Central and on Friday it will be Succotash in the Glades Central gym. Bouts start at 7 p.m. and admission is only 50 cents for students and a dollar for adults.

Football Awards Banquet. "I've ever coached a player I would tell younger players to pattern themselves after," Head Raider Coach Al Werneke said, "this boy (mims) is the one."

Besides being named the MVP for the year, Mims was named co-captain by his fellow players and received further recognition by being named to the Palm Beach Post's All Area First Team.

Mims was an outstanding middle linebacker for during his senior year, with his 108 tackles for the season a runaway first place for the Raiders.

Besides his tackles, Mims also made two pass interceptions and recovered three fumbles and he was one of the reasons the Raider defense held season opponents to a total 478 yards rushing in 281 attempts and limited scoring against the Raiders to 79 against the Raiders 198.

The questions came from University of Tampa head football coach Dennis Fryzel, who asked the Raiders why, coming off a 150 season record in 1971 and a 121 season last year, they compiled a 6-3-1

HEAD FOOTBALL COACH AL WERNEKE HELPS JAMES MIMS HOLD ...his trophies as Most Valuable Player, co-captain, and best defensive back.

record this year. "That bothers me," Fryzel said. "A lot of coaches would be more than satisfied."

Fryzel said the answer might be that the players "must look at yourself in the mirror every day for the rest of your lives."

He said the first loss, in 1972, must have been hard but later losses would become easier to take until the players finally wouldn't be too bothered at all.

To me," Fryzel said, "it all means discipline. When you're unbeaten and number one, everybody else tries twice as hard to knock you off and you

have to work even harder to stay unbeaten." Other Raiders winning outstanding awards were Calvin Willis, the Outstanding Defensive Lineman, Daniel Brown, the Outstanding Offensive Lineman and Jerry Clark, the Outstanding Offensive Back.

Mims was joined set co-captain by Daniel Brown and on the All Area First Team by Jerry Clark. Willis was named the Palm Beach Times Unsung Hero.

The Most Improved Underclassman Back was Rigo Ruiz and the Most Improved Senior Back was Charles Brown. Bernard Hammond was the

Most Improved Defensive Back and David Jones and Clement Brown tied for Most Improved Lineman.

Karen's Korner

By Karen Hansford

Back in 1895, before most of our time, William G. Morgan invented a game of "Mintonette" or more commonly known as volleyball.

Morgan's objective was to provide some kind of sport which would not be too strenuous for the older men. Little did he know that volleyball would in time become as much an American sport as football or basketball, although maybe not as widely acclaimed.

Lately, the residents at Glades Correctional Institute trailer park have taken up the game, playing just about every afternoon in a vacant field.

Even the women got out there and have a good time and they even show up the men once in awhile, but not too often.

They're mostly out there for fun but a few have mentioned the possibility of forming one or more teams and playing against others who are interested enough in competing with them.

John Hunter, one of the men who play regularly, said they "would take on" anyone whether it's men's teams, women's teams, or mixed.

Personally, I'm out of it. Volleyball just isn't my sport.

Oh, I can hit the ball all right. But it's always in the wrong direction such as behind me, into another player, out of bounds, or under the net.

Once in awhile I get lucky and the ball sails over the net. Then I become so excited about getting it over the net I forget about it maybe coming back towards me again.

Anyway, I'll be content to stand aside and keep score—or chase the ball when it goes out of bounds. Unless they're desperately in need or an extra player who makes up in enthusiasm for what she lacks in skill.

But it's worth looking into if there are any other volleyball fans in Belle Glade who like to play for the heck of it and would want to play in competition.

Yep, volleyball has come a long way since the time Morgan set up a tennis net threw a bladder from a soccer ball to the players and told them to bat it back and forth until someone misses it. Then start all over again.

Nowadays we have serves, set-ups, spikes, boundaries, and whatever else there is connected to the game.

But it took some time for volleyball to become nationally known. The United States G. I.'s helped to make it internationally Association was formed and became the governing body of the sport in U.S. competition.

Finally, volleyball became an Olympic sport in 1964.

NOTES — Glades Central held their annual football awards banquet last Thursday, with Coach Dennis Fryzel of the University of Tampa as the guest speaker. Congrats to James Mims who won the Most Valuable Award as the Most Valuable Player.

The Junior Varsity Raiders, under the coaching of Coach Selder, have thus far gone undefeated, winning 12 straight. The best of luck to them...

OLIVE KINGSBURY
...MISSIONARY NURSE

Temple Beth Shalom News

by Arthur Nagle

The World and the people living on it are in a continual crisis. It may take the forms of financial, economic or political crisis, but the fact remains that our minds conjure them up and we must face them.

It is bad and it leaves its scars. It brings conflict and death. It brings dissatisfaction and poverty. It brings a lack of faith and desolation. It brings hate and confusion. It brings a disregard for the law and injustice.

But think, how else could we ever appreciate the life we live and the good there is about us to seek and behold. Sure there is a wrong in the world. Certainly there is grief on this earth.

Absolutely we are grieved then, but we can keep the good before us. We can keep the good before us. We can keep the good before us. We can keep the good before us. We can keep the good before us.

It is imperative that we do not let the good before us be lost. It is imperative that we do not let the good before us be lost. It is imperative that we do not let the good before us be lost.

It will help you reflect that all is not wrong in the world and in the not too distant future prosperity and happiness will prevail for all.

Announcements of interest sincere thanks to the Parson for donating the Rev. Kingsbury to the Temple.

Presented For Baptism

Mr. and Mrs. Donald W. Bailey of Belle Glade presented their daughter "Marcy Lynn" for Baptism, Sunday Jan. 19th, at the morning service at the United Methodist Church of Lake Harbor.

The Rev. Donald F. Rock Sr. officiated at the service. Those standing with the parents were the baby's great-aunt Mrs. Ed Kilgough of West Palm Beach, the baby's grandmother Mrs. M.M. Bailey of South Bay and Great-grandmother Mrs. H.D. Merriam of Lake Harbor. The maternal grand-parents Mr. and Mrs. R.E. Watson of Dublin, Ga. were unable to attend.

Baby Marcy wore a hand made white gown and bonnet trimmed with petite tucks and tatted lace made especially for the occasion by her great aunt.

Rev. Rock had a very meaningful service using a pink rose bud for the baptism which after the service was presented to the parents for a keepsake.

Mr. Ed Kilgough of West Palm Beach and his father from Oklahoma were also guests.

PREVENT KITCHEN RANGE FIRES

An estimated 100,000 burn-accidents are associated with kitchen ranges each year. The majority of these fires occur when cooking oil, or prevent some pain and suffering.

If a fat fire should start in the cookware on the range-top, immediately cover the pan and turn off the source of the heat. If the fire should spread use a fire extinguisher. (All kitchens should be equipped with a multi-purpose, dry chemical fire extinguisher. If you do not have an extinguisher, throw baking soda on the fire. NEVER try to carry flaming cookware outside or to the sink, and do not throw water on a grease fire. Water only causes grease fires to spread. When fire starts in the oven or broiler, close the door. Turn off the source of heat and keep the door closed. With limited air, the fire should go out in minutes.

The situation has been brought to you as a service by your local insurance agency that MILTON CARPENTER INSURANCE, 115 E. Avenue C, Belle Glade, Phone 996-2056. Associates Thomas B. Rumlalt and ... Office 129 N. Lake Ave., Pahokee, Dan ...

The new superhighway is a masterpiece of engineering skill, yet you still can't see around the curve in the distance. Whatever lies beyond the bend is as much a mystery as it was when this was a single-lane road.

Today we are living in the space age and are exposed to fresh miracles with almost every passing hour. But we still can't "see around the bend" of life. We are as human as we ever were and have no way of knowing what is coming next.

Since the beginning of time, man has lived with this mystery. What keeps him going? For many, it is the knowledge that the answer to our fate lies in far more capable hands than ours. This is God's universe, after all, His creation, and we are His creatures.

True, you can't see around the bend. But you can equip yourself for life's journey by taking a single, all-important step. This step is toward the church of your choice.

"Eternal vigilance is the Price of Liberty"

★★★ Wendell Phillips 1852 ★★★
THE GOOD OLD DAYS
 ...or were they? We all like to reminisce about how things used to be. Funny thing is they always seem better looking back. Maybe that's because we had the leisure time for long walks in the country or to read a good book. Life today is certainly not the faster pace, and it seems we just have too many things to crowd into our days. We come here have a re-creation our schedules, putting immediate problems on our "priority list" and pushing other thoughts aside. Come to think of it, how long since we've considered what it really means to be an American and the importance of freedom in our daily lives? Perhaps we should take the time to remember what's really important. LET'S PUT AMERICA BACK ON OUR "PRIORITY LIST!"

Our precious heritage enshrined in the flag of the United States, is as alive today as it was when written for the ages in the Declaration of Independence and the Constitution. It stands for all the world to see and for all Americans to cherish. And in the tradition of Washington, Jefferson, Madison, and Lincoln, we must guard it with the same vigilance and devotion that they did. We must guard it with the same vigilance and devotion that they did. We must guard it with the same vigilance and devotion that they did.

75% OFF
 That's how much you can save on a 3-minute long distance call anywhere in Florida if you dial direct without an operator's assistance after 5 p.m. And that 75% could add up to a maximum savings of \$2.25. The rate is even lower all day Saturday and up until 5 p.m. on Sunday. So dial direct. The percentages are in your favor.

Raiders, Devils In Second Place Tie

RAIDER BASKETBALL TEAM SHOWN ARE (kneeling) OSBORNE POLICE COLLIE CANNON, Wright, Coach McDonald, Nelson, Hoffenden, Allen, Shoemaker, Jones, Glaze and Coach Jay Seider.

With seven games left in the season before going into regional playoffs, the Glades Central High School basketball team found itself in an unusual position this week.

With seasonal record of 10-4 before meeting Jupiter Tuesday night, the Raiders roundballers were tied with Pahokee for second place in the conference.

That tie should be broken one way or the other by next week. The Raiders are scheduled to play conference leading North Shore Saturday night at North Shore's gym and will meet Pahokee Tuesday night.

The Devils attempt to use their home court advantage to avenge the 70-82 shellacking they suffered at the two teams' last meeting.

In the meantime, Pahokee, ranked sixth among the state's 21 teams, will built heads with North Shore, which is currently in the top 10.

ly ranked number two in the state in 3A play.

"If Pahokee beats North Shore," Raider Coach Willie McDonald said with a grin, "and we beat North Shore and Pahokee, it ought to make things pretty tight in the conference."

With their ten wins this season, McDonald has led the Glades Central to their first winning season in three years unless the team manages to lose the next seven games.

Since Jupiter has only managed to win two games this season, that doesn't appear likely, especially considering the type of play the Belle Glade high schoolers have played so far this year.

McDonald said Marvin Allen, a 5'10" senior, has been high scorer so far, with a 20.4 points per game average but the coach was also liking his chops over a couple of juniors on the squad.

In the meantime, the Raider Junior Varsity roundball team is well on its way to a second undefeated year, boasting a 12-0 record so far this year.

McDonald said the JV, under the direction of Coach Jay Seider, plays each night the varsity plays, just before the varsity games. The reason the JV team has only played 12 games so far is that they weren't invited to the Christmas tournament.

LAST CHANCE

TO GET IN ON IT.

Everybody who's anybody is there. Printing is about to begin on the new directory and Yellow Pages. So remember, extra directory listings cost very little. And if you're in business, you should be in the Yellow Pages, too. The deadline's almost here. Don't miss it. Call our Business Office now.

G'Mornin.

It's me again, Cindy. Told you I'd be back.

I don't know about you but I can't function until I've had my first cup of coffee. 'Course, some mornings are worse than others...like Mondays. Yuck!

Then again, other mornings aren't quite so bad. Take Friday. That's a good morning because it's payday and you can look forward to the weekend.

Thursday morning's are pretty good too because you know you have more than half the week whipped. Better yet, that's the day we get the Herald (Bet you knew I'd get around to that sooner or later).

That's one of the high points of the week because I can team the Herald up with that first cup of coffee

and while I wake up, I can find out what's been happening for the past week.

Now, you can find out what's happening around the world by reading the daily papers. I do that too, but if you want to get the local news from a local angle, the Herald is the only paper around that's got it.

Besides, where else are you gonna find a paper with ads telling you about sales at Belle Glade stores, or announcements of Glades births, or the local social news, or classified ads placed by the people you want to do business with...your own friends and neighbors, or editorials with a strictly local slant.

So wake up Belle Glade; the Herald is where it's at. They don't call it the Voice of the Glades for nothing.
